Capacities:

8GB
16GB
32GB

Professional-Level, High-Speed Performance and Reliability

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities, which include innovative features and valuable free software. With so many options, it's easy to find the right Lexar® solution to fit your workflow needs.

The Lexar Professional 233x CompactFlash® (CF) card provides reliable, high-speed performance, with a minimum sustained write speed of 233x (35MB/s), so you can capture and store high-quality images and video with your DSLR camera.* The Lexar Professional 233x CF card is available in 8GB, 16GB, and 32GB capacities.

Improve Capture, Capacity, and Workflow

High-Speed Performance. Available in a range of capacities from 8GB to 32GB, the Lexar Professional 233x CF card offers high-speed performance with a minimum sustained write speed capability of 35MB/s. This means you can keep shooting—whether you're capturing high-quality images or video. This high-speed performance improves transfer speeds from card to computer, reducing your post-production time—making it a top choice among professional photographers.

Includes Downloadable Software and Valuable Offers. The Lexar Professional 233x CF card includes the latest version of award-winning Lexar Image Rescue™ software. Image Rescue 4 software provides reliable recovery of most photo and video files, even if they've been erased or the card has been corrupted.** What's more, the card includes exclusive, money-saving offers on leading Adobe® products. You'll enjoy free, 30-day trials of the latest versions of Photoshop® Lightroom® (with \$50 off the full version), Premiere® Elements, and Photoshop Elements software (with \$30 off each full version).***

Exceptional Performance, Reliability, and Compatibility. The Lexar team works with major camera manufacturers to ensure all Lexar memory cards are compatible with their digital cameras—from the simplest to the most complex. The cards are also tested in the Lexar Reliability Lab, a facility with more than 800 digital cameras and memory card devices, to further ensure compatibility and performance. And all Lexar Professional cards come with a limited lifetime warranty and a free, dedicated customer support line. Designed with professional photographers in mind, the Lexar Professional 233x CF card provides impressive high-speed performance, improved workflow, and valuable software.

Lexar. When Memory Matters.™

*When used in conjunction with a UDMA-enabled reader and/or a UDMA-enabled camera.

**Image or other data recovery is not 100% guaranteed.

***Software offerings may vary depending on product ship date. Please check product packaging for included software offerings.

The Lexar "x" speed rating describes minimum write speed capability where x=150KB/sec sustained write speed.

Actual usable memory capacity may vary. 1GB equals 1 billion bytes.
