microSD Mobile Memory Card

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities. With so many options, it's easy to find the right Lexar® memory card to fit your needs and lifestyle.

The Lexar microSD™ mobile memory card is ideal for increasing the storage capacity of your cell phone, PDA, or other mobile device, allowing you to download, play, and store media and applications. The card is available in 2GB capacity.

Unleash the Power of your Mobile Device

Take Mobile Technology to the Next Level. In the ever-changing world of mobile technology, you need a memory card that can keep up with the demands of the latest applications found in today's feature-rich devices. The Lexar microSD mobile memory card is designed to maximize the capacity and capabilities of your microSD-enabled handheld device. It can significantly increase your storage capacity for multimedia files, including songs, photos, video, and more.

Serious Storage. The Lexar microSD mobile memory card is a reliable mobile storage solution that maximizes the capacity and capabilities of your handheld device. With the Lexar microSD mobile memory card, you'll enjoy the ability to download and store a huge number of song, photo, video, gaming, and other media files—great for your mobile lifestyle.

Lexar. When Memory Matters.™

WARNING: Some SD readers and cameras may not support 2 Gigabyte (2GB) or higher capacity cards. Please check with the manufacturer of the target device before using this card. Failing to do so may result in card damage and/or data loss.

*Based on 2GB capacity. 2-megapixel JPEG. 128-kbps MP3 audio. 384-kbps MPEG4-SP video. Actual number of photos, songs, and minutes will vary depending on camera/device model, format resolution and compression, usable capacity, and bundled software.

Actual usable memory capacity may vary. 1GB equals 1 billion bytes.
